WHA Resources Endorses Well-Advised

Celebrating Our
HEALTHCARE HEROS

WHA Resources is pleased to announce our newest endorsed vendor, Well-Advised. Well-Advised provides Medicare patients with free, non-biased education and online tools so that they can optimally manage their healthcare and costs. 94% of consumers are enrolled in a suboptimal plan, resulting in overpayment or under-coverage. As a result, many patients avoid needed care, delay appointments and don't fill prescriptions, leading to anxiety and poor health.

By partnering with Well-Advised, patients can improve enrollment accuracy to assure optimum clinical coverage while matching their financial abilities. Patients simply answer questions

about what's most important to them, and the service recommends optimal plans, facilitates enrollment and assists with accessing the care and services they need to manage their health. Well-Advised continually tracks changes in plans, providers, hospitals, drugs and treatments, and alerts users when better plan options become available. By advocating for appropriate patient access, a hospital reduces bad debt and improves patient satisfaction.

Color Tokens Webinar

Join us for this exciting webinar “Building a Cyber-Resilient Healthcare Organization: What the C-Suite needs to know” jointly hosted by Wyoming Hospital Association and their exclusively endorsed cybersecurity vendor ColorTokens.

The session will be presented by distinguished speakers James M.T Morrison, Retd FBI - Cyber and Ray Biondo from

the eHealth Initiative Leadership Council.

During the session, speakers will discuss about the new challenges the healthcare industry faces and what steps organizations can take to achieve cyber-resilience: that is, to continuously deliver value without adverse incidents impacting operational performance.

Star Valley Health Receives 2021 Women’s Choice Award

Star Valley Health has received the coveted 2021 Women’s Choice Award as one of America’s best hospitals for emergency care.

The Women’s Choice Award is a trusted referral source for the best in healthcare. This award means Star Valley Health ranks in the top 8% of the 4,542 U.S. hospitals offering emergency care services.

Star Valley Health is one of 477 award recipients representing the hospitals that have met the highest standards for emergency care in the U.S. by the Women’s Choice Award.

Emergency room waiting times are one of key measurements for award.

“We have found that recommendations are an important consideration used by women

in selecting a hospital for themselves and their family. By helping women know which hospitals in their area provide the best critical care, we are able to help them make better decisions, especially when it comes to emergency situations,” says Delia Passi, CEO and Founder of the Women’s Choice Award. “Women make over 80% of healthcare decisions and have demanding lifestyles and we help simplify her life by making it easy for her to find the best care in those stressful emergency situations.”

Criteria for selecting Star Valley Health as one of America’s Best also included the percentage of patients who came to the emergency department with stroke symptoms who received brain scan results within 45 minutes of arrival.

“Star Valley Health is honored to receive the Women’s Choice Award for Emergency Care in 2021. Women make the bulk of decisions regarding the healthcare services that they and their family utilize, both in general and emergency needs, and we are beyond pleased to have received their trust “stated Daniel Ordyna, CEO of Star Valley Health. “We will continue to work very hard to deserve their confidence in the healthcare services provided at Star Valley Health.”
